

REMARKS

Reconsideration and withdrawal of the rejections to the claims set forth in the Office Action of January 26, 2006 are respectfully requested in view of the following remarks.

Status of the claims

Claims 1-4 and 6-43 are pending. Claim 5 was previously canceled.

No claims are presently amended.

Claims 1-4 and 6-43 stand rejected under 35 U.S.C. § 103.

The Rejections Under 35 U.S.C. § 103

The Examiner has rejected claims 1-5, 7-11, 13-21 and 33-36 under U.S.C. § 103(a) as being obvious over Sprague *et al.*, U.S. Patent No. 6,449,720 (the “720 patent”) in view of Shear *et al.*, U.S. Patent No. 6,157,721 (the “721 patent”).¹

The Examiner has further rejected claim 6, 12, 22-32 and 37-43 under U.S.C. § 103(a) as being obvious over the ‘720 patent in view of the ‘721 patent further in view of Moore *et al.*, U.S. Patent No. 6,696,975 (the “975 patent”).

The Examiner pointed out that applied reference (the ‘720 patent) has a common assignee with the instant application. Based on the earlier effective U.S. filing date of the reference, the applied reference constitutes prior art only under 35 U.S.C. § 102(e). The Examiner states that the rejections under 35 U.S.C. § 103(a) might be overcome by, *inter alia*, showing that the reference is disqualified under 35 U.S.C. § 103(c) as prior art in a § 103(a) rejection.

¹ Applicants note that claim 5 has been previously canceled, and its cancellation was acknowledged by the Examiner in the instant Office Action. Accordingly, applicants believe that the rejection of claim 5 is in error.

Statement of Common Ownership

In response, Applicants, through their agent of record, hereby state that the instant application and U.S. Patent No. 6,449,720 were, at the time the invention of the instant application was made, owned by Wave Systems Corporation.

In support of the statement of common ownership, applicants provide, at **Exhibit 1**, a copy of an Assignment and Notice of Recordation of Assignment. The Assignment was recorded on May 15, 2001 at Reel 001811, Frame 0570 and assigned the invention to Wave Systems Corporation.

Applicants further provide, at **Exhibit 2**, documentation from the United States Patent and Trademark Office web site of the recordation of the Assignment of Application Serial No. 09/313,295 (now U.S. Patent No. 6,449,720). The Assignment was recorded on September 21, 1999 at Reel 010258, Frame 0189 and assigned the invention to Wave Systems Corporation.

By virtue of the above-identified assignments assigning the inventions to Wave Systems Corporation, Applicants have established common ownership of the conflicting '720 patent and the instant application. As such, the '720 patent can not be cited as prior art under 35 U.S.C. § 102(e) as part of an obviousness rejection under § 103(a). Accordingly, applicants respectfully request that the rejection of claims 1-4, 7-11, 13-21 and 33-36 under U.S.C. § 103(a) as being obvious over the '720 patent in view of the '721 patent, and the rejection of claims 6, 12, 22-32 and 37-43 under 35 U.S.C. § 103(a) as being obvious over the '720 patent in view of the '721 patent further in view of the '975 patent, be withdrawn.

Conclusion

Applicants earnestly request that the Examiner consider the above remarks and allow the claims to issue.

Applicants believe that no additional fee is due in connection with the filing of this Response. However, Applicants authorize, in the Fee Transmittal Form (submitted herewith in duplicate) the Director to charge payment of any additional fees or credit any overpayment associated with this Response to Deposit Account No. 02-4377.

Respectfully submitted,
